

# Vistair Document Management System (DMS)

Last Modified on 02/05/2022 9:42 am MST

Frontier's new Document Management System (DMS) is called Vistair. Flight Attendants will use **DocuNet**, a Vistair application, to view Must-Reads, Memos, Manuals and Forms.

A reference course is available in Schoox with a tutorial video on how to access and use Vistair's DocuNet. The video may also be accessed by clicking the link: <https://youtu.be/T8nlhPk24uk>

The reference course and YouTube video may be viewed as many times as you'd like.

For questions about the new system, contact [Inflight\\_PnP@flyfrontier.com](mailto:Inflight_PnP@flyfrontier.com).
