

# Theme - Display Setting

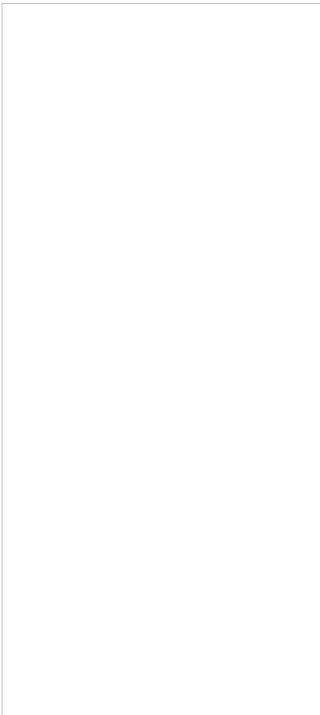

Last Modified on 06/15/2023 1:20 pm MDT

To modify the Theme display (light or dark mode) use the following procedures:

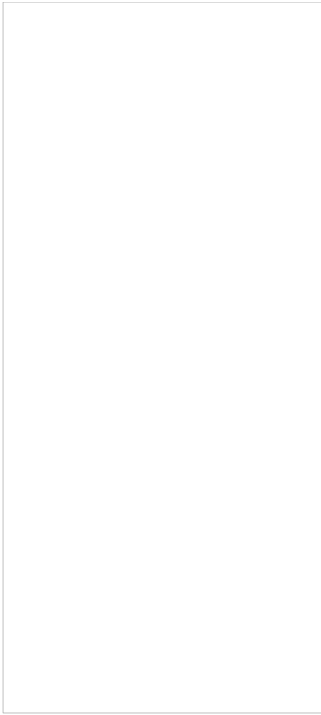

**Step 1: Open the hamburger menu in the upper-left corner.**

**Step 2: Select the *Settings* icon.**

**Step 3: Select *Light* from the list of available display options.**

**Step 4: You're done! The device is now in Light Mode. Feel free to adjust this setting according to your personal preference, as required.**
