

Back up Flight Attendant Manual (FAM) - vFileBrowser

Last Modified on 02/14/2025 12:30 pm MST

The vFileBrowser houses a PDF version of the Flight Attendant Manual (FAM). This is the backup for when DocuNet is not accessible/working and should NOT be the primary point of access to the FAM.

If your vFileBrowser is not updating to the new FAM Revision #70, you will need to active the SOTI MobiControl permissions.

For FlyTab procedures, refer to Flight Attendant Manual (FAM) 05.13 FlyTab Abnormal/Emergency Procedures for details.
